GMCF honors Dr. William Taylor with Quality Award

(ATLANTA, Ga.) – Georgia Medical Care Foundation (GMCF) has honored William Dennis Taylor, MD, with a Medical Director Quality Award for 2011.

“Dr. Taylor is a proven team leader, an effective educator, and a champion for quality improvement,” said Anne Hernandez, manager of GMCF’s Patient Safety Initiative. “We are proud to present him with this award – for his knowledge, leadership and involvement in promoting quality health care.”

(L-R) Dr. Adrienne Mims, QIO Medical Director, GMCF; Dr. William Taylor, Dr. J. Clark Hill, III, GMDA President

The award is presented by GMCF, the Medicare Quality Improvement Organization (QIO) for Georgia; the Georgia Medical Directors Association (GMDA); and the Georgia Health Care Association (GHCA).

During his 12-year tenure at Green Acres Health and Rehabilitation, Dr. Taylor has made a significant impact on the lives of residents and staff. He is considered an “educator” and has promoted quality measures by continually reviewing standards of care. As a result of his leadership, Green Acres ranks below average in pressure ulcers and physical restraints.

The award was presented at the GMDA Summer 2011 Symposium in Amelia Island, Florida.

GMCF, the Medicare Quality Improvement Organization for Georgia, is a not-for-profit, physician-sponsored organization dedicated to continuously improving health care. In operation since 1970, GMCF provides innovative health care solutions focused on quality improvement, utilization management, medical review, and health care outcomes research. For more information, please visit www.gmcf.org.
